Please join the California Department of Toxic Substances Control (DTSC) as we convene a meeting of the Green Ribbon Science Panel (GRSP) on April 9 – 10, 2014, in Sacramento, California. The public is invited to attend and address the GRSP on agenda items.

Background

The GRSP was established by AB 1879 (Feuer, Chapter 559, Statutes of 2008) to act as a resource to the DTSC and the California Environmental Leadership Council. The GRSP will provide scientific and technical advice to DTSC as we strive to build a meaningful, practical, and defensible Safer Consumer Products program. The GRSP also provides advice and recommendations on a variety of other scientific and technical matters related to green chemistry and chemicals policy and implementation strategies.

Meeting Purpose

The purpose of this meeting is to provide the GRSP a forum to discuss and advise DTSC about the priority product selection process and alternatives analysis process as described in the Safer Consumer Products regulations.
